

Medical Writing and Healthcare Communications

Evidera's Medical Writing and Healthcare Communications team has more than 17 years of experience delivering consistently high quality materials, for both internal and external audiences. Our writers prepare documents that are clear, concise, scientifically accurate, and fully compliant with regulations, industry best practices, and your corporate guidance.

Evidera's highly collaborative approach ensures customer needs are met and client preferences are a priority, delivering documents designed to exceed customer needs in terms of both content and formatting.

Our highly trained staff provide medical writing services for peri- and post-approval product support, guaranteeing continuity of quality and a high level of scientific rigor across the spectrum of lifecycle needs.

"We love working with your team... the difference is like night and day compared to others we've used in the past"

Manager, Medical Communications
Mid-size pharmaceutical company

"Your writers are the few who have sent me a perfect response. I have edited, in fine detail, over 1,600 responses. (With Evidera) there are fewer versions, saving time and cost per each reviewer"

Senior Editor, Global Medical Content
Top 10 pharmaceutical company
